ABOUT US

Entertainment and internet service systems for maritime, rail systems, and air travels providing fast and quality design, production, maintenance, repair, marketing, and after-purchase services along with spare parts for software subsystems within civil aviation.

Operating from Istanbul to transform all short and long haul flights into pleasant journeys by using the latest technological equipment, coming up with innovative ideas, and surpassing expectations.

Here are some of the traditional and the latest technology IFE systems by us:

- **Seat-Back IFE**
Aiming for more enjoyable short and long-haul flights, all about transforming the traditional systems available in the market into more modern and practical products.
- **Tablet Base IFE**
Ensuring an amazing passenger experience with the latest technological products, aiming to enhance in-flight entertainment options through a single platform.
- **Wireless IFE**
With the world's lightest in-flight wireless internet server enabling passengers to remain connected to the wireless network with their personal devices even in the skies.
